

Office Lighting

LARA

Our Up-and-Down Light is dimmable via a rotary switch, making it easy to set the perfect lighting level. With a 2.5-meter cord, you can place it anywhere you need. Available in three colors, each model also offers optional motion and daylight sensors. These sensors adjust brightness based on presence and ambient light, ensuring energy savings by dimming or turning off when not needed.

Art. Nr.	EAN	Model	Sensor	Power (W)	Lumen	Colour Temp	UGR	Height	Colour

LUKA

This version of our Up-and-Down Light features a touch dimmer for seamless control. Its 2.5-meter cord allows for flexible placement. Choose from three colors, all equipped with motion and daylight sensors. These sensors automatically adjust brightness to match ambient conditions and can reduce or turn off the light when no one is around.
